Discussion on documents to be created and passed to the new service position holder

Documentation that already exists is a strength

Who is going to create the documents?

Area inventory needs to have all committee members in attendance

Although the fact that the area was having an inventory was passed down to the committees and districts, it was not stressed that the committee members from CPC, PI, Archives, Accessibility, Grapevine, or Website attend the inventory.

The evidence of this was the limited number of comments made by the working groups made in reference to the committees listed above.

Because only the GSRs and the Area committee proper were in attendance, it was felt that a complete inventory of Area 31 was not made and that this lapse might need to be addressed.
